## Current position:

Postdoctoral Researcher at  
University of California,  
Santa Barbara

## Current Address:

2104 Harold Frank Hall  
Santa Barbara  
93106-5110, California

## INTERESTS AND OBJECTIVES

---

My main area of interest lies on Computer Vision and Deep Learning. I am particularly excited about designing future visual implants for people with visual disabilities using Artificial Intelligence (AI) and Virtual Reality.

## EDUCATIONAL BACKGROUND

---

### Postdoctoral Scholar in Computer Science

Feb 2022 - present

Computer Science Dept.,  
University of California, Santa Barbara – California, United States  
Advisors: Michael Beyeler

### PhD studies in Computer Vision

Oct 2017 - Jan 2022

Computer Science and Systems Engineering Dept.,  
Universidad de Zaragoza – Spain  
Advisors: Dr. Jose Jesús Guerrero Campo and Dr. Rubén Martínez Cantín  
Thesis title: “Egocentric Computer Vision and Machine Learning for Simulated Prosthetic Vision”

### Teaching

Sep 2020 - Dic 2020

### Master of Engineering in Industrial Engineering

Subject of Visión y Robótica  
Universidad de Zaragoza – Spain

### Teaching

Feb 2019 - April 2019

### Master of Engineering in Industrial Engineering

Subject of Representación gráfica del patrimonio  
Universidad de Zaragoza – Spain

### Summer School on Computer Vision (BMVA 2018)

July 2018

Norwich - UK

### Subject of Vision and Robotics

Sep 2017 - Jan 2018

Master of Engineering in Industrial Engineering  
Universidad de Zaragoza – Spain  
Advisors: Dr. Jose Jesús Guerrero Campo and Dr. Gonzalo López Nicolás

### Master of Chemical Engineering

Sep 2015 - May 2017

Universitat de València – Spain

Master's degree final project title: "Elimination of a representative VOC by total oxidation using catalysts"

Advisor: Dr. Benjamín E. Solsona Espriu

## Bachelor of Chemical Engineering

Sep 2011 - May 2015

Universitat de València – Spain

Final degree project title: "Design of catalytic converters in exhaust pipes"

Advisor: Dr. Benjamín E. Solsona Espriu

## SCHOLARSHIPS

---

### FPI scholarship (PhD candidate)

Oct 2017

Research staff training program from the Ministry of Economy and Competitiveness for I+D+i

Universidad de Zaragoza – Spain

Research Project: "DPI2015-65962-R"

## WORK/RESEARCH EXPERIENCE

---

### Visit PhD Researcher

May 2021 - June 2021

Prof. Eduardo Fernández Jover

*Retina model simulation through Virtual Reality*

Instituto de Bioingeniería

Universidad Miguel Hernández

### Visit PhD Researcher

Sep 2019 - Dec 2019

Prof. Benoit Cottureau and Christophe Jouffrais

*Spiking Neural Networks*

IRIT and CerCo labs

University of Toulouse

### Research Engineer

May 2017 - Oct 2017

Robotics, Perception & Real Time Group

Universidad de Zaragoza – Spain

Research Project: "DPI2015-65962-R"

*Research in Computer Vision and Robotics: Egocentric computer vision for the interaction with the environment of people with visual disability*

### Research Assistant

Sep 2016 - May 2017

Engineering Department

Universitat de València – Spain

*Research in Carboquímica: Elimination of a representative VOC by total oxidation using catalysts*

## PUBLICATIONS

---

### JOURNALS, INTERNATIONAL CONFERENCES AND WORKSHOPS

- [1] "Spiking neural network with an unsupervised STDP model for visual prosthesis"

Melani Sánchez García, Tushar Chauhan, Rubén Martínez Cantín, Jose J. Guerrero and Benoit R. Cottureau

In preparation

- [2] “Visual acuity assessment with visual prosthesis through a virtual reality system”  
**Melani Sánchez García**, Roberto Moreollón Ruiz, Rubén Martínez Cantín, Jose J. Guerrero and Eduardo Fernandez Jover  
Submitted
- [3] “Augmented reality navigation system for visual prosthesis”  
**Melani Sánchez García**, Alejandro Perez Yus, Rubén Martínez Cantín and Jose J. Guerrero  
Submitted
- [4] “Influence of field of view in visual prostheses design: Analysis with a VR system”  
**Melani Sánchez García**, Rubén Martínez Cantín, Jesús Bermudez Cameo and Jose J. Guerrero  
Journal of Neural Engineering  
Published: October 7, 2020
- [5] “Semantic and Structural Image Segmentation for Prosthetic Vision”  
**Melani Sánchez García**, Rubén Martínez Cantín and Jose J. Guerrero  
PLOS ONE Journal  
Published: January 29, 2020
- [6] “Indoor Scenes Understanding for Visual Prosthesis with Fully Convolutional Networks”  
**Melani Sánchez García**, Rubén Martínez Cantín and Jose J. Guerrero  
VISAPP 14th International Joint Conference on Computer Vision, Imaging and Computer Graphics Theory and Applications, 22, October 2018
- [7] “Structural and object detection for phosphene images”  
**Melani Sánchez García**, Rubén Martínez Cantín and Jose J. Guerrero  
Published in Arxiv, 25, September 2018
- [8] “Smart Representation of Indoor Scenes under Simulated Prosthetic Vision”  
**Melani Sánchez García**, Rubén Martínez Cantín and Jose J. Guerrero  
WiCV Women in Computer Vision Workshop, 15th European Conference on Computer Vision (ECCV), 9, September 2018

## SUPERVISED BACHELOR/MASTER PRACTICUM SUPERVISOR

---

- Lorenzo Labadial Mur. Co-supervised with Rubén Martínez Cantín. Bs. Industrial Eng. Universidad de Zaragoza. 2020-2021
- Violeta Estepa Ramos. Co-supervised with Rubén Martínez Cantín. Bs. Industrial Eng. Universidad de Zaragoza. 2019-2020
- María Santos Villafranca: “Simulador de prótesis visual en entornos 360° con gafas de realidad virtual”. Co-supervised with Jose Jesús Guerrero Campo. Bs. Industrial Eng. Universidad de Zaragoza. 2018-2019
- Pedro Luis Compais Serrano: “Sistema de asistencia a la navegación basado en la cámara de eventos”. Co-supervised with Jose Jesús Guerrero Campo and Rubén Martínez Cantín. Bs. Industrial Eng. Universidad de Zaragoza. 2018-2019

## PARTICIPATION IN RESEARCH REVISIONS

---

- [1] External Reviewer in Journal of Neural Engineering, 2020
- [2] External Reviewer in ICRA IEEE International Conference on Robotics and Automation - 2020, Paris, Virtual Conference, IEEE Robotics and Automation Society.
- [3] External Reviewer in ACVR Sixth International Workshop on Assistive Computer Vision and Robotics, 9, September 2018

## RESEARCH PROJECTS

---

- Egocentric Computer Vision for Environment Interaction of Visually Impaired People (EVEIVI), DPI2015-65962-R. Financed by MINECO and UE/FEDER. P.I.(principal investigator): Jose J. Guerrero

## OTHER ACTIVITIES

---

- “Influence of Field of View in Visual Prostheses Design: Analysis with a VR System”  
Presented at IX Jornada de Jóvenes Investigadores del I3A, 2020
- I was featured in Ágora, which is the Aragón Radio program dedicated to popular science.
- I participated in the initiative 'Una ingeniera en cada cole' (AMIT)
- “Semantic and Structural Image Segmentation for Prosthetic Vision”  
Presented at VIII Jornada de Jóvenes Investigadores del I3A, 2019

## PROGRAMMING LANGUAGES

---

Python  
Tensorflow and Keras  
C/C++  
Matlab  
OpenCV  
R  
ROS  
Visual studio  
Gazebo

## LANGUAGES

---

English — Fluent (C1)  
German — Beginner  
Spanish — Native
